DETECT, TRANSMIT, RESPOND!

The family owned Dehart Alarm Systems has been committed to personal service, system reliability and 100% customer satisfaction since 1967. We attain this goal by providing the highest quality products and services at an affordable price. With offices in both Sarasota and Naples, Dehart is one of the largest low voltage integrators on the west coast of Florida backed by a UL Listed Central Monitoring Station and a friendly staff of experts. Security and peace of mind are the common denominators when clients call us. Beyond that, every need is special. Since 1967 we have had a standard of excellence to live up to every day.

How We Can Help You

Dehart takes pride in offering our customers a local choice for security services. We have been in business since 1967 providing security, fire, CCTV, access control and other low voltage systems to residential, commercial, industrial and governmental clients in Southwest Florida.

Dehart Monitoring Facility

Dehart Alarm Systems operates our own UL Listed Central Monitoring facility located within our offices in Sarasota, Florida. Unlike our competitors who monitor systems from other parts of the state or country, our trained and certified Central Station operators are familiar with the area and the emergency requirements of local authorities. This knowledge can speed up the response time for our customers when emergency personnel need to be summoned.
